PROFILE

I am a dedicated front-end developer who thrives on turning design concepts into pixel-perfect, responsive websites. I'm committed to continuous learning, staying up-to-date with industry trends, and collaborating effectively to deliver visually appealing and functional user interfaces

PROJECTS

- **Weather App Using React**

I built a weather app using React that gives you real-time weather updates at your fingertips

- **To-Do List App**

I created a user-friendly to-do list app for efficient task management, making it easy to add, edit, and complete tasks

- **Personal Portfolio web**

I built my own personal portfolio website to showcase my work and skills, providing a glimpse into my professional journey as a web developer

- **E-commerce web**

I created an eCommerce website similar to Amazon, offering a wide range of products and a user-friendly shopping experience.
